1982 DATA SET (County & State)

FILE: ag82cos.ver1987.dta

A version of this file ag82cos.ver1987_missing.dta converts cells to missing (". " in Stata) where the flags indicate that. The original file had those cells as zero.

Another version of this file ag82cos.ver1987_missing_corrected.dta corrects for an error discovered in the original data files. The numbers for item05037 " Cropland, only pasture or grazing (acres)" were interchanged among the 1978, 1982, & 1984 files. This was corrected.

Flag codes: 0 = no special conditions associated with this data cell
1 = data not available (NA)
2 = data not available (X)
3 = less than half or the unit reported (Z)
4 = data withheld to avoid disclosing information for individual farms (D)
5 = data not published for this State/county (because it contains fewer than 10 farms or no farms) (NA)
6 = data not available due to brackets (NA)

1987 DATA SET (County & State)

FILE: ag87cos.ver1987.dta

A version of this file ag87cos.ver1987_missing.dta converts cells to missing (". " in Stata) where the flags indicate that. The original file had those cells as zero.

Another version of this file ag87cos.ver1987_missing_corrected.dta corrects for an error discovered in the original data files. The numbers for item05037 " Cropland, only pasture or grazing (acres)" were interchanged among the 1978, 1982, & 1984 files. This was corrected.

Flag codes: 0 = no special conditions associated with this data cell
1 = data not available (NA)
2 = data not available (X)
3 = less than half or the unit reported (Z)
4 = data withheld to avoid disclosing information for individual farms (D)
5 = data not published for this State/county (because it contains fewer than 10 farms or no farms) (NA)
6 = data not available due to brackets (NA)
