Acknowledgement of Assistance

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR Data facilities to follow some adaptation of this statement with the parenthesis indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for CENSUS OF POPULATION AND HOUSING [UNITED STATES], 1980: PERSON AND HOUSING UNIT COUNTS FOR TRACTS AND MINOR CIVIL DIVISIONS were originally collected by the U.S. Dept. of Commerce, Bureau of the Census. Neither the collector of the original data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium. Please indicate in the cover letter which data were used.

U.S. Dept. of Commerce. Bureau of the Census;
CENSUS OF POPULATION AND HOUSING [UNITED STATES], 1980: PERSON
AND HOUSING UNIT COUNTS FOR TRACTS AND MINOR CIVIL DIVISIONS (ICPSR
7970)

This special file was prepared by the Bureau of the Census and covers all census tracts and all minor civil divisions or census county divisions in the United States. All persons in the country were included in the file which has counts for total population, population in group quarters, number of total housing units and number of occupied housing units. There are 83,672 records in the file, one for each geographic unit, and each record has a logical record length of 60. Each record is arranged in a sort sequence of record type, state, county and then MCD/CCD or tract. Class IV

Census of Population and Housing, 1980:
Person and Housing Unit Counts for
Tracts and Minor Civil Divisions

Technical Documentation

This documentation consists of the following materials:

Attachment 1	Abstract
Attachment 2	Record Layout Tract Record MCD Record
Attachment 3	Glossary
Attachment 4	FIPS State and County Codes

NOTE

Questions about the accompanying documentation should be directed to Data User Services Division, Data Access and Use Staff, Bureau of the Census, Washington D.C. 20233. Phone: (301) 449-1667.

Questions about the tape should be directed to DUALabs.

Abstract

Census of Population and Housing, 1980:
Person and Housing Unit Counts for Tracts
and Minor Civil Divisions [machine-readable
data file]/prepared by the Bureau of the
Census. -- Washington: The Bureau [producer
and distributor], 1981.

TYPE OF FILE:

Summary statistics

UNIVERSE DESCRIPTIONS:

All persons in the United States.

SUBJECT-MATTER DESCRIPTION:

The file has counts for total population, population in group quarters, total housing units, and occupied housing units.

GEOGRAPHIC COVERAGE:

All census tracts and all minor civil division/census county divisions.

TECHNICAL DESCRIPTION:

FILE SIZE: 83,672 logical records;
record size is 60 characters.

FILE SORT SEQUENCE: Record type, then State,
then county, then MCD/CCD or tract.

REFERENCE MATERIALS:

"Census of Population and Housing, 1980: Person and Housing Units Counts for Tracts and Minor Civil Divisions Technical Documentation." (This document). The document contains an abstract, a record layout, and additional information about the file. One copy accompanies the file. Additional copies are available from Data User Services Division, Customer Services (Tapes), Bureau of the Census, Washington, D.C. 20233.

RELATED REPORTS:

PHC80-V Final Population and Housing Unit Counts. This report is useful to purchasers of this file because it contains the names of the individual minor civil division/census county divisions (MCD/CCD's) listed in MCD/CCD-code order. The attached sheet lists price and ordering information for individual state reports.

PC80-1-A Number of Inhabitants. This report contains final population counts for States, standard consolidated statistical areas (SCSA's), standard metropolitan statistical areas (SMSA's), urbanized areas (UA's), urban and rural residence, counties, minor civil division/census county divisions, and places. Reports are issued separately for each State, the District of Columbia, Puerto Rico, Guam, Virgin Islands, and American Samoa. There is a combined report for the trust territory of the Pacific Islands and the Northern Mariana Islands. These reports will be released on a flow basis beginning in July, 1981.

PHC80-2 Census Tracts. (Microfiche report) Data for selected population and housing subjects included in the 1980 census are shown by census tracts for standard metropolitan statistical areas (SMSA's), central cities, and places of 10,000 or more inhabitants. Some tables are based on 100-percent or complete-count tabulations while others are based on sample tabulations. There is one title for each SMSA and one for the tracted balance of each state. Maps provided with the tract reports will be printed on paper stock and not be available on microfiche. These reports are tentatively scheduled for release between June, 1982 and January, 1983.

Census of Population and Housing, 1980: Person and Household Counts for Minor Civil Divisions in Selected States. Photocopies of these counts (which also include persons in group quarters and persons per household) are available for minor civil divisions in the following eleven States: Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Michigan, and Wisconsin. The same data are available for all places in the United States. For more information, write Customer Services (Publications), Bureau of the Census, Washington, D.C. 20233.

AVAILABILITY:

The tape is available on one reel at both 1600 and 6250 bpi. The cost is \$110. Please order from Customer Services (Tapes) using the Customer Services order form which follows. The technical options available are listed in the order form.

1980 Census of Population and Housing

Final Population and Housing Unit Counts

These reports present final official population and housing unit counts from the 1980 census and for 1970. The Advance Reports provide these counts in advance of their publication in the final 1980 census reports. The set consists of 56 reports in leaflet form and includes a U.S. Summary and one report for each State, the District of Columbia, Puerto Rico, Guam, Virgin Islands, and American Samoa.

The reports show population and housing unit counts for the following areas or their equivalents: State, counties, county subdivisions, incorporated places, census des-

ignated places, standard metropolitan statistical areas (SMSA's), and congressional districts of the 96th Congress. The U.S. Summary report presents data for the United States, its regions, divisions, States, SMSA's, and congressional districts

HOW TO ORDER

For sets of the reports, mark the quantity desired on the order form. For individual reports, make the appropriate entries on the list of reports and fill out the total quantity and price on the order form.

Glossary

CENSUS COUNTY DIVISION (CCD). A statistical subdivision of a county, roughly comparable to a minor civil division (MCD). CCD's are defined in 20 States which do not have MCD's suitable for reporting census statistics (i.e., the MCD's have either lost their original significance, are very small in population, have frequent boundary changes, and/or have indefinite boundaries). CCD's are established cooperatively by the Census Bureau and both State and local government authorities. They are generally defined by boundary features that seldom change and can be easily located, such as roads, rivers, and powerlines.

CENSUS TRACT. A small statistical subdivision of a county. Tracts generally have stable boundaries. When census tracts are established, they are designed to be relatively homogeneous areas with respect to population characteristics, economic status, and living conditions. Tracts generally have between 2,500 and 8,000 residents. All standard metropolitan statistical areas (SMSA's) recognized before the 1980 census are completely tracted. In addition, an estimated 3,000 census tracts have been established in 220 counties outside SMSA's. Five States are entirely tracted: Connecticut, Delaware, Hawaii, New Jersey, and Rhode Island. In all, there are over 43,300 census tracts for the 1980 census (including 465 in Puerto Rico).

GROUP QUARTERS, PERSONS IN. Persons in living arrangements, such as nursing homes or rooming houses, which are not households. Group quarters status was determined on a complete-count basis.

Two general categories of persons in group quarters are recognized.

Inmate of Institution. A person under care or custody at the time of enumeration. Inmates are persons in such facilities as homes, correctional schools, specialized hospitals, or wards for juveniles or the physically or mentally handicapped; persons in homes or hospitals for chronic diseases; persons in homes for unmarried mothers or in nursing (convalescent and rest) homes; persons in homes for the aged and dependent; and persons in correctional institutions. These persons are enumerated as residents of an institution--regardless of their length of stay in the particular place. Some tabulations include data by major types of institutions (home for the aged, mental hospital, correctional institution, and other institutions).

Other persons in group quarters. A person living in noninstitutional group quarters. Noninstitutional group quarters have nine or more persons unrelated to the person in column 1 of the questionnaire, or ten or more unrelated persons, and include such living quarters as rooming and boarding houses, communes, workers' dormitories, and convents or monasteries.

Persons residing in certain other types of living arrangements are classified as living in noninstitutional group quarters, regardless of the number or relationship of people in the unit. These include persons residing in military barracks, on ships, in college dormitories or in sorority and fraternity houses; patients in short-term medical, maternity and surgical wards of hospitals who have no usual home elsewhere; live-in staff members of institutions and other group quarters, provided that their living arrangements do not meet the housing unit definition; and persons staying in missions, flophouses, Salvation Army shelters, railroad stations, etc.

HOUSING UNIT. A house, apartment, mobile home or trailer, group of rooms, or single room occupied or intended for occupancy as a separate living quarters. Separate living quarters are those in which the occupants do not live and eat with any other person in the structure and which have direct access from the outside of the building or through a common hall.

The occupants of a housing unit may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements (except as described in the definition for Persons In Group Quarters). For vacant units, enumerators apply the criteria of separateness and direct access wherever possible to the likely use by intended occupants, or otherwise to the use by previous occupants. Both occupied and vacant housing units are included in the housing inventory, except that recreational vehicles, tents, caves, boats, railroad cars, and the like are included only if they are occupied.

MINOR CIVIL DIVISION (MCD). A primary political and administrative subdivision of a county. MCD's are most frequently known as townships, but in some States they include towns, magisterial districts, and similar areas. A few counties have some territory not organized into MCD's; such "unorganized territory" is treated as one or more MCD's for census purposes.

MCD's are used for census purposes in 29 States. In 20 of the remaining States, CCD's are used in lieu of MCD's, and in Alaska, census subareas are used.

The Census Bureau has assigned each MCD, alphabetically sequenced within county, an incremental, unique 3-digit numeric code.

OCCUPANCY STATUS. The classification of all housing units as either occupied or vacant.

Occupied. The classification of a housing unit with a person or persons living in it as a usual residence when enumerated--or only temporarily absent, for example, on vacation. A household consists of all the persons who occupy a housing unit. Therefore, counts of households and occupied housing units should match--although complete counts may differ slightly from sample data.
